

A small community library opened near the town center on March 15, 2026. It offers more than 2,500 books, 120 magazines, study spaces, and free internet access for students and local residents. The building has 8 large windows, 24 reading desks, and a quiet room for people who need to focus.

Every Saturday at 10:30 AM, the library organizes short workshops on writing, technology, and basic computer skills. Volunteers also help children choose books and complete school assignments. Visitors can borrow up to 3 books for 14 days.

The library plans to add 500 digital resources by the end of 2026, including e-books and online learning materials. Local residents have welcomed the project because it provides a safe and useful space for learning.
